Forecast for Friday 04 Nov 2022

Weather: A cool night with clear spells will lead into a sunny morning, perhaps some mist in prone spots but the fresh northerly breeze will prevent that becoming too widespread. Plenty of bright or sunny spells but the keen northwesterly winds will add a chilly feel to the day.

Chance of cloud-free hill tops above 600m: 90%, patches of low cloud forming around the summits in the afternoon.

Low cloud and visibility: Patches of low cloud forming around the western tops in the afternoon. Otherwise tops mainly clear and good views expected at height around the Brecon Beacons.

Meteorologist's View

Feeling quite chilly in fresh northwesterly winds, especially in the morning.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
15:00 on Thu 03 Nov 2022	19.4mm	36.6mm	70.2mm

Forecast for Saturday 05 Nov 2022

Weather: Although mainly dry overnight, thickening cloud and rain will spread across the Brecon Beacons during the morning, rain is not expected to be heavy and some drier spells in the east of the area, rain will clear east in the afternoon but some low cloud, mist and drizzle may linger. Cloud clearing later in the afternoon with some clear spells during the evening.

Maximum wind: Southerly 20-25mph with gusts 35-40mph, turning southwesterly 15-20mph later.

Chance of cloud-free hill tops above 600m: 80% falling to 30% early in the morning, improving to 90% by late afternoon.

Low cloud and visibility: Broken cloud layers forming above 400m as frontal rain moves across the area in the morning, around eastern areas cloud will be scattered around 500m with more chance of clear tops here. Visibility will be poor for much of the day and almost nil at height with low cloud down over the hills, slightly better around eastern hills during the rain.

Temperature: **Valleys:** Plus 4 rising to 11 Celsius.
At 600m: Plus 3 rising to 8 Celsius.
Freezing level: Above all summits
